Capti Voice is a universally accessible literacy tool enabling teachers to support, monitor, and assess students with diverse needs and abilities within a single classroom. Capti Voice is universally accessible in that it works across varying devices, content sources, content formats, student abilities, age groups, instructional goals, and subject areas. Use Capti to listen to books, articles, and more on multiple devices, even without an internet connection!

Identified students are provided with a premium school account. (There is also a free version that can be utilized by students who are not identified for a premium school account.)

Features include:

FREE

Text to Speech
Turn any text into an audiobook: Capti will read text aloud hands-free and eyes-free. Purchase more voices from our library a la cart. Listen to samples of premium voices.

Save for Later
Save documents and web articles for later in your Playlist and access it even offline; synchronize your Playlist and your reading position across all your devices

Sophisticated Navigation
Jump to the next/previous word, sentence, paragraph, heading, page, or a search keyword

Screen-Reader Support
Extensively customized for JAWS and NVDA (Windows) and VoiceOver (iPhone, iPad)

PREMIUM

Full-Text Playlist Search
Find the best-matching tracks in your Playlist; searching inside a track is free

Images in Text
View images in tracks created from EPUB, PDF, DOC(X), and other documents

Create Playlists
Stay organized by saving tracks to different playlists: only 1 playlist is available by default

File Size Limit
Add documents and books that are up to 100MB in size; default limit is 10MB

Contextual Dictionary
Contextual word and phrase translation and definition.

Word Challenge
Play Word Challenge, a fun game that will help you build vocabulary and learn the English language with your own texts

Original Layout for PDF
View PDF documents exactly as the author intended, including layout, fonts, and artwork

Bookmarks, Highlights, Notes
Bookmark important parts of text, highlight useful passages, and add your thoughts as notes. Export everything to a text file.

Computer Use: Login at website: https://www.captivoice.com using login created for you.
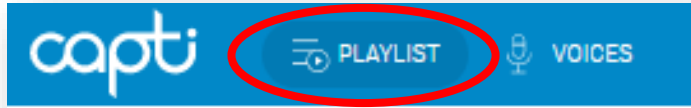

PLAYLIST is where you will find any tracks/items saved for you to read.
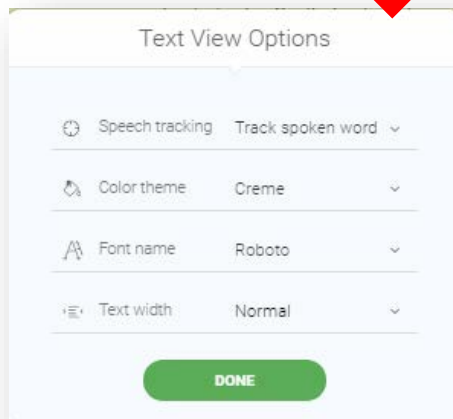

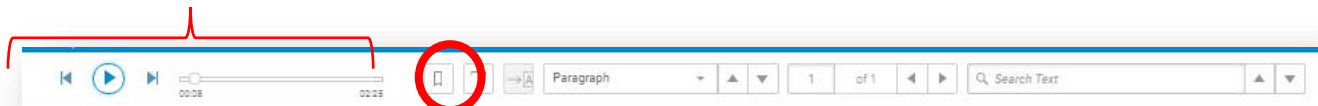

Teachers may share playlists with students, or students may create and add to their own playlists.
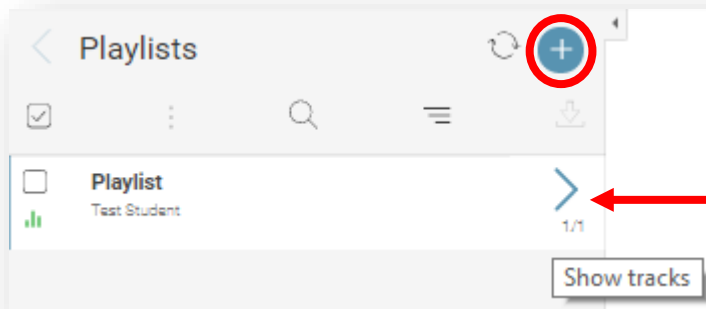

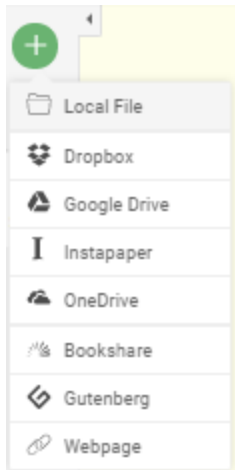

Click on the ⊕ to create a new PLAYLIST.

Click on the arrow to open a PLAYLIST and view the tracks.

Once a track is open, use the toolbar to listen and navigate through the text, add bookmarks.
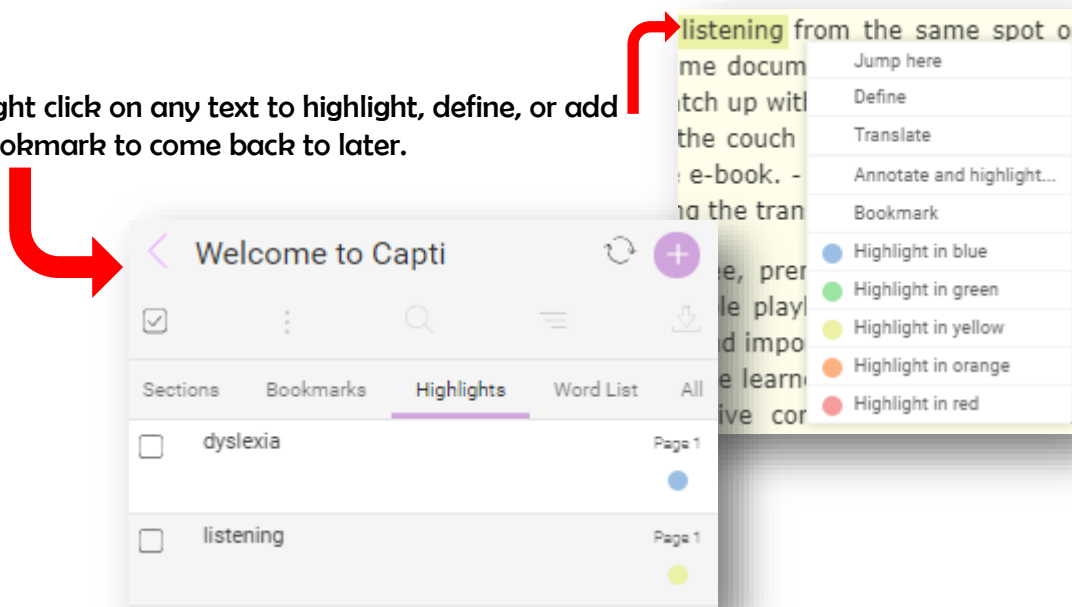

Text View Options allow you to set the tracking on/off, colors, fonts, and paragraph width.

Click on the ⊕ to add tracks to your Playlist. Tracks can be added from a wide variety of sources such as webpages, Bookshare, and uploading from the local computer.

Once items are added as Tracks, the text can be read aloud.
