

How to Guide

Read with Go Read

Go Read is a free, open source ebook reader for Android devices. Go Read is optimized for visuallyimpaired readers and usable by anyone. The app connects directly to Bookshare, and allows you to download and listen to accessible ebooks in seconds.

Install Go Read

1) Go to Google Play

- 2) Search for Go Read or Bookshare.
- 3) Select Go Read and "Install".

Opening Go Read's Menus

There are two separate menus in Go Read—the Drawer menu and the More Options menu. Within the Drawer menu you can open your downloaded books and search and download titles within Bookshare's library. Within in the More Options menu you can adjust settings.

1) Open Go Read on the device and select the Drawer menu button on the left side of the header bar.

2) Here you find options to read downloaded books or search for new books. You can view books by author, title, recent downloads, etc.

3) Within the "More Options" menu you can access Go Read's settings, including both visual and font settings.
